2020-2025 Evolution

8. 10 Recommendations

Actionable checklist

Appendix: Mencius Mother Method

Family education practice

1. CORE PHILOSOPHY

Life Positioning

""Xingjia is a small person" - Admitting smallness, but never giving up growth"

""People are the end, not the means" - Technology serves people, not the other way around"

""Your experiences, stories, and emotions are your moat" - What AI cannot replicate"

Action Philosophy

""Anxiety is useless, only action counts""

""Get on the bus first, then change buses" - Whether buying houses, immigrating, or learning"

""Use it first, you'll naturally learn in the process""

Learning Principles

""The threshold has been lowered, but the requirements have increased""

""What's valuable is the ability to ask good questions and judge answers""

2. FAMILY MANAGEMENT

Marriage

"The best relationship is mutual fulfillment"

Parenting

"AI can give you answers, but cannot replace you kneeling down to patiently watch a fish with your child"

Family Atmosphere

"All education depends on parents setting an example"

Daily Life

"Ordinary yet happy days" - The most precious state of life

6. GOLDEN QUOTES COLLECTION

1. "AI won't replace programmers, but programmers who use AI will replace those who don't"

2. "Use it as a tool first, don't overthink"

3. "Instead of worrying about what AI will replace, think about what more time AI can give you to cherish"

4. "Programming hasn't gotten easier, tools have gotten stronger"

5. "Get on the bus first, then change buses"

6. "People are the end, not the means"

7. "Passion means that even if parents repeatedly stop you, you still find ways to do it"

8. "Your experiences are your moat"

9. "40 years old, day X of learning programming"

10. "The journey from Ningxia to Shenzhen to Hong Kong"

11. "Extreme altruism leads to extreme self-interest"

12. "Among tens of thousands of readers, only parents are the most loyal"

7. ANNUAL KEYWORDS EVOLUTION

Year	Keywords	Stage
2020	Shenzhen, Real estate, Startup	Starting period
2021	Hong Kong, Identity, Education	Steady growth
2022	Dual-city life, Cross-border	Explosion period
2023	HK education, DSE	Peak period
2024	Entrepreneurship, Team, Clients	Adjustment period
2025	AI programming, Parent-child	New starting point

Evolution: Real estate blogger -> Immigration educator -> AI programming blogger

8. 10 RECOMMENDATIONS FOR READERS

1. Use it first, don't overthink - No need to be fully prepared to start

2. Invest in your "human touch" - Spend time with family, what AI cannot do

3. Learn to ask questions, not just answers - Most valuable skill in AI era

4. Get on the bus first, then change buses - For houses, immigration, jobs

5. People are the end, not the means - Technology serves people

6. Extreme altruism creates extreme self-interest - Business essence

7. Parents are children's mirror neurons - Be who you want them to become

8. Ordinary yet happy days - Meaning of life

9. 40 is not too late to learn programming - Lifelong learning attitude

10. Your experiences are your moat - No one can copy your life

APPENDIX: MENCIUS MOTHER METHOD

Mencius' mother moving three times is not just geographical relocation, but creating a better growth environment for the next generation. From Ningxia to Shenzhen to Hong Kong - this is a family's continuous exploration of "what is good education".

First Migration: Ningxia to Shenzhen

Core: Environment is education

Practice: Break cognitive ceilings, dare to start from zero, goal-driven

Second Migration: Shenzhen to Hong Kong

Core: Give children choices

Practice: Identity planning, dual-city balance, parents go first

Third Migration: Traditional to AI

Core: Parents are the best AI teachers

Practice: Parents learn first, AI parenting tools, cultivate human touch

"Instead of worrying about what AI will replace,

think about what more time AI can give you to cherish"
